American Council of Engineering Companies of South Carolina is a member organization of the AMERICAN COUNCIL OF ENGINEERING COMPANIES. The Membership directory is published every other year for member firms by Jones, McAden & Associates. Adam B. Jones, Executive Director, PO Box 11937 ~ Columbia, SC 29211

The American Council of Engineering Companies of South Carolina is happy to publish the 2019 ACEC-SC Directory. ACEC-SC is the only organization for consulting engineers in South Carolina. Our member firms are dedicated to practicing quality engineering.

Each member firm is fully capable of doing engineering work listed in their firm's description. We investigate each firm and vote each into our membership to ensure all member firms are quality organizations. Each firm must adhere to the high standards of excellence of the engineering profession.

Each ACEC-SC member is also a member of the national organization, ACEC. By being a member of the state and national organization our members keep abreast of state and national trends as well as state and national policies, laws and regulations through programs, meetings, seminars and publications.

If you are considering an engineering, planning or research project, this directory is here to help you find the services you want. Please feel free to contact any of our member firms. You will always find quality consulting council with our engineering firms. If you have any questions you can call our staff for assistance. ACEC-SC headquarters are located at: 826 Assembly St. Columbia SC 29201 / P.O. Box 11937 (29211), (803) 771-4271, and www.acecsc.org.

Sincerely,

Adam B. Jones
Executive Director

MISSION STATEMENT

The mission of ACEC-SC is to advocate, advance and protect the business interests of the Engineering Firms, and the standards of the Engineering Profession in South Carolina.

VISION STATEMENT

American Council of Engineering Companies of South Carolina will be the essential organization serving as the recognized voice for all engineering firms in South Carolina.

PROCUREMENT OF ENGINEERING, SURVEYING DESIGN SERVICES

A high-quality engineer's design can have a dramatic savings effect on maintenance and operations over the life span of the project. The fee for the design professional amounts to only a small percentage of overall project costs; however, the result of a designer's work can greatly impact the life-cycle costs. Qualifications Based Selection (QBS) is the process recognized by the federal government as the most effective way to choose consulting engineering services. QBS is essentially the policy stating that engineers should be selected on the basis of competence, unique abilities for each project. Price should not be a factor in selecting the design firm, at this point.

The following steps in the QBS process are recommended by the American Council of Engineering Companies:

Step 1: Request for Qualifications

Prepare a formal Request for Qualifications (RFQ) for a proposed project and distribute it to a select list of firms. Ask respondents to indicate their interest in the project and illustrate relevant project experience and overall capabilities to perform the services required for the project. The initial RFQ should include the following:

- A. A description of the proposed project.
- B. Any special expertise or unusual services that might be required.
- C. A time schedule for the overall project, including the selection process to retain a consulting engineer.
- D. A list of selection criteria (e.g., geographic location of firm, small business set-aside, or current workload of staff).

Step 2: Evaluation of Firms

Evaluate the written qualifications of the firms and select the top three to five firms to be interviewed. The evaluation should be based on the following factors:

- A. Individual qualifications of personnel as a team.
- B. Overall experience of personnel as a team.
- C. Ability of the team to perform within time constraints.
- D. Firm's awareness of project's issues, opportunities and constraints.
- E. Project team's experience on similar projects.
- F. Quality of past work.
- G. Performance evaluation form past clients.

Step 3. Interview

Arrange for interviews with the top firms. Whenever possible, the interview should be held at the consulting engineer's office to provide an opportunity for the buyer to observe the firm in action. An evaluation form with predetermined selection criteria should be provided to interviewers to determine the firm's score. The evaluation form should include the following components:

- A. Project team management plan.
- B. Previous experience of project team.
- C. Location and quality of office facilities.
- D. Project control measure to monitor schedule and budget.
- E. Availability of staff resources based on firm workload.
- F. Project approach.
- G. Quality of work on similar projects.
- H. Awards and past client recommendations.
- I. Financial stability of the firm.
- J. Overall team ranking.

Step 4: Selection/Negotiation

Select top-ranked firm and initiate the negotiation for the scope of work, the terms and conditions of a contract, and compensation. The negotiation process includes the following:

- A. Preparation of comprehensive proposal by the top-ranked firm.
- B. Presentation of scope of work, schedule, and level of effort by the top-ranked firm.
- C. Agreement on scope of work, schedule fee, and areas of responsibility and liability.
- D. Preparation of written contract binding both parties to the agreement.

A consulting engineer's fee should include the cost of services of both principals and staff in the design and specification of a project. It also includes maintenance of the firm's office and equipment and visitations to the project site to verify the competence of work performed.

Additional arrangements may be made for:

- A. Environmental impact statements and similar declarations to conform with government regulations.
- B. Investigations, other consulting engineers or technical firms engaged.
- C. Unusual amount of site activities, resident supervision.
- D. More than the stipulated number of drawings specifications.
- E. Major change to plan.
- F. Construction Management.

If the negotiations with the first choice firm fails for any reason, sever negotiations with the firm and begin the process with the second choice. If an agreement with the second firm is not reached, continue the process through the ranked firms.

DESCRIPTION

Founded in 2018, CONSOR Engineers, LLC is a North American engineering firm providing services in transportation planning and design, structural assessment, and construction services. The company was formed through a merger of four firms that are proven leaders across the transportation engineering landscape: Infrastructure Engineers, AIA Engineers, Target Engineering Group, and Johnson-Adams & Associates. CONSOR's collective strength builds on a combined 90-year legacy with a project portfolio spanning thousands of transportation projects across North America. With 46 offices in 25 states and Canada, CONSOR employs more than 650 people. Furthermore, our engineering services have taken us to 49 states and five foreign countries. Through our strong history of design, our firm has achieved distinction as one of the premier engineering studies and design firms for transportation projects; we are also recognized as a national leader in the structural inspection arena.

DESCRIPTION

DDC is a medium sized firm located in Myrtle Beach, SC. Over the 28-year history of the firm, DDC has been responsible for many of the landmark projects in and around South Carolina's Grand Strand. To name a few, Tidewater Plantation, Barefoot Landing, The Myrtle Beach Boardwalk, Ocean Lakes Family Campground, Caledonia Golf Club, True Blue Golf Club, North Beach Plantation and Barefoot Resort and Golf are the first to come to mind. Each of these projects have won awards such as the Governor's Cup or have been named to a list of distinguished projects. DDC has been an on-call engineer for decades to The City of Myrtle Beach, Horry County and the Horry County Dept. of Airports. In addition, we serve as on-call consultants to Horry Georgetown Technical College, Coastal Carolina University, Georgetown County, The Georgetown County Water and Sewer District and the Town of Surfside Beach. Members of DDC management are also heavily involved in the community, serving on various boards and commissions and donating time and energy to worthy causes. We are extremely proud of the accomplishments of the firm. The majority of that pride revolves around the real difference we've made in our State and our Community.

DESCRIPTION

Founded in 1988, Engineering Consulting Services (ECS) is a leader in geotechnical, construction materials, environmental consulting, and facilities engineering. More than 30 years ago, our goal was to raise the standards of professional consulting engineering by hiring industry professional who understood the complexities of building and maintaining modern infrastructures. Our company success spans multiple industry sectors. Our steady growth comes from a deep belief in developing the people, systems, and expertise required to focus on client needs. With over 1,700 employees, ECS has grown to more than 60 offices and test facilities spread across the Mid-Atlantic, Southeastern, Midwestern and Southwestern states. ECS is currently ranked 75 in Engineering News-Record's Top 500 Design Firms (ENR, April 2018).

DESCRIPTION

We believe that the way we work can add meaning and value to the world. That ideas inspire positive change. That coloring outside the lines can illuminate fresh perspectives. And that small details yield important realizations. Above all, we believe that collaboration is the best way forward.

We specialize in engineering, architecture, environmental and construction services. While we are most well-known for adding beauty and structure to communities through high-performance buildings and smart infrastructure, we provide much more than that. We create an unshakable foundation for progress because our multidisciplinary teams also include scientists, economists, builders, analysts and artists. Our employees, working in more than 200 locations around the world, push open the doors to what possible each and every day. We celebrate these numbers: 10K-Employees worldwide; 200+-Offices around the globe; 7-Countries where we operate; 14-Markets we serve and 100-Years of Pushing Boundaries.

DESCRIPTION

OLH was founded in 1993 to offer general consulting services in the areas of project and construction management. A small, woman-owned firm, OLH is certified both as a Disadvantaged Business Enterprise (DBE) and Small Business Enterprise (SBE) with the South Carolina Department of Transportation. OLH has an office in downtown Columbia, South Carolina which opened in July 2005, and other offices include Atlanta, GA (headquarters), Augusta, Georgia, and Huntsville, Alabama. OLH provides support to departments of transportation, various counties, and local municipalities for transportation projects by providing cost estimating, scheduling, financial planning, design review, drafting services, utility coordination, and construction engineering & inspection services. OLH is set apart from the competition through the way we integrate and personalize our services to each client's needs. The goal of OLH is to provide engaged management of each client's project from the seed of a development idea through the entire design and construction process. OLH adheres to its motto of Passion, Integrity, and Dedication for every client on every project.

DESCRIPTION

John C. Sheridan IV, P.E., S.E., SECB is president of The Sheridan Corporation. After receiving a Bachelor of Science in Civil Engineering from Rensselaer Polytechnic Institute in 1980 and a Master of Engineering in Civil Engineering with a specialty in Structural Engineering from Rensselaer Polytechnic Institute in 1981, Mr. Sheridan joined his family's consulting engineering firm specializing in structural engineering projects.

His projects include the design and inspection of marine/waterfront structures, the design and inspection of building structures, condition assessment and strength evaluation of existing structures, and seismic studies of existing buildings.

In 2013 Mr. Sheridan was awarded the second runner-up prize in the Change the Course- New York City Waterfront Construction Competition. This international competition's goal was to seeking out methods to build more economical and sustainable marine structures along the New York City waterfront. In 2016 Mr. Sheridan was awarded the Engineering Excellence Award and Small Firm Award from the American Council of Engineering Companies of South Carolina (ACEC-SC) and the National ACEC Recognition Award for the project entitled Seawall Repairs for the City of Charleston, S.C.

Mr. Sheridan is a registered Professional Engineer in South Carolina, Georgia, Florida, North Carolina, and New York. He is also a registered Structural Engineer in Illinois.

DESCRIPTION

Three Oaks Engineering (Three Oaks) is a woman-owned business focused on helping our clients accomplish infrastructure projects with careful consideration of community and environmental needs. We have 34 environmental professionals in offices in Columbia, South Carolina and Durham and Raleigh, North Carolina, and are a certified disadvantaged business enterprise (DBE) with both the North Carolina and South Carolina state departments of transportation.

Three Oaks has significant National Environmental Policy Act (NEPA) experience on large and controversial projects. Our expertise includes developing purpose and need statements; evaluating alternatives; analyzing potential impacts to communities and natural systems; coordinating with municipal and county governments, as well as federal and state resource agencies; public involvement efforts, including planning and small group meetings; providing natural resource surveys; performing Section 4(f) Evaluations; and Section 106 coordination.

We have a highly respected corps of natural resource scientists for a broad range of environmental work, including threatened and endangered species surveys, consultation under Section 7 of the Endangered Species Act (ESA), ecological/habitat evaluations, essential fish habitat (EFH) analyses, wetland and stream jurisdictional determinations, and environmental permitting.

DESCRIPTION

The South Carolina Asphalt Pavement Association (SCAPA) is a non-profit trade association representing the asphalt pavement producers in South Carolina, as well as the suppliers to the industry to include suppliers of aggregate, liquid asphalt and emulsions; suppliers of additives, truck bed release agents and biodegradable extraction solvents; asphalt milling and recycling companies; certified public accounting firms; engineering & testing firms; equipment dealers; insurance brokers; natural gas suppliers; surety bond agencies; traffic control & pavement marking suppliers; and transport.

■ SUBSURFACE UTILITY SOLUTIONS, LLC

4288 Club Course Drive
North Charleston, SC 29420
(703) 336-7818
Contact: Tom Rock
Email: rock.tom@outlook.com
Web Site: www.subsurfaceutilitysolutions.com

Subsurface Utility Solutions LLC serves as a consulting firm focusing on issues associated with underground utilities. Primary services include Utility Designating/Locating on private property, Subsurface Utility Engineering (SUE) technical support, and Business Development, Reporting and Expert witness testimony. Janet Rock, CEO, is a government contracting and procurement expert. Tom Rock, President, is a subject matter expert in Subsurface Utility Engineering with over 27 years of experience.

Janet Rock, CEO, holds a Master's Degree in Administration from East Carolina University as well as a Bachelor's Degree in Journalism from The University of South Carolina. She has extensive experience in government contracting, management, research, and education. Her experience includes serving as a Proposal Specialist for Tracen Technologies, Inc., an Information Technology company in the metropolitan Washington DC area. Additionally, Mrs. Rock has 18 years of experience in education at various levels including management as a High School Assistant Principal.

Janet also served as a consultant to So-Deep Inc., one of the premier Subsurface Utility Engineering firms in the world. She was responsible for creating marketing material, as well as updating training manuals. Through this experience, she gained an in-depth knowledge of the Subsurface Utility Engineering Profession and its Best Practices.

Thomas Rock, President, holds a Bachelor Degree in Technology and a Minor in Mathematics from East Carolina University. Mr. Rock has 32 years of experience with underground utilities. For five years he served as a foreman for Pipeline Utilities installing various types of underground utilities including water, forced sewer, storm water and gravity sewer systems.

Mr. Rock was employed by the So-Deep family of Companies for 27 years in various positions. He began his career there as a Field Manager Trainee in 1992. He worked through positions as: Field Manager, Raleigh Branch Manager, SE District Director, Vice President, Senior Vice President, Executive Vice President and finally the last 9 years as President of the So-Deep family of companies.

In these capacities Mr. Rock has been responsible for the management of DOT contracts with: Alabama, Georgia, South Carolina, North Carolina, Virginia, Maryland, Delaware, Pennsylvania, Texas, Ohio, Illinois and Michigan. Mr. Rock has also overseen the management of multiple County and Municipality contracts as well as the excavation of hundreds of thousands of test holes and linear feet of designating/surveying underground utilities.

Together, these two leaders bring skills and experiences that make Subsurface Utility Solutions uniquely qualified to deliver excellence in utility consulting by providing solutions to a variety of potential issues associated with Underground Utility Infrastructures. Founded in October 2018, Subsurface Utility Solutions is Woman Owned Small Business (WOSB) pending SCDOT application approval.

■ THC, INC.

 Monroe, NC 28112
 (704) 844-9093 Fax: (704) 243-1011
 Contact: Mark Price
 Email: mprice@utilitycoor.com

DESCRIPTION

In today's environment of rapidly escalation construction costs, it is exceedingly important that Engineering and Construction projects be completed on schedule and with a defined budget. To this end, Utility Coordination Consultants, a full service Utility Coordination firm, works diligently to provide a level of service that consistently achieves these goals.

Since our conception in 2003 it has been UCC's innovative, forward-thinking solutions to utility issues that allow us to identify and resolve utility conflicts before they cause disruptions or project delays. For example, during a project's design phase, we work closely with the Subsurface Utility Engineering firm to gather plats of existing utilities. We work meticulously to identify any conflicts that may exist within the project limits. If conflicts are discovered, we collaborate with the project team to determine the feasibility of project redesign or explore possible relocation options.

If relocation is the selected option, UCC negotiates price, time frame of completion, and the logistics of the actual relocation with the utility owners. We work as a liaison to coordinate activities between the contractor and the utility companies, resulting in a timely and equitable resolution.

ACEC-SC ARTICLES OF INCORPORATION

ARTICLE I NAME AND LOCATION

Section 1

The name of this organization shall be American Council of Engineering Companies of South Carolina, hereafter referred to as Organization, ACEC-SC, or Corporation.

Section 2

The headquarters of this Organization shall be located in the State of South Carolina as determined by the Board of Directors, herein referred to as Board.

ARTICLE II PURPOSE AND OBJECTIVES

Section 1

The basic purpose of ACEC-SC is to provide a single state organization for consulting engineers and surveyors in private practice by replacing, supplanting, or effecting the merger of or affiliation with all organizations of consulting engineers and surveyors operating in the State of South Carolina; to take advantage of affiliation with other professional organizations whose aims and objectives are consistent with the aims and objectives of this Corporation, and through the medium of this Corporation, to foster the objectives hereafter set forth.

Section 2

The specific objectives of ACEC-SC are:

- A. To foster and safeguard ethical standards of engineering and surveying and to aid in the advancement of the science of engineering and surveying through educational and research activities.
- B. To insure that ethical professional standards for independent consulting engineers and surveyors are maintained.
- C. To promote the professional and economic welfare of its members.
- D. To act as a clearinghouse and information center on all matters of mutual interest to its members.
- E. To advance the value of the consulting engineer and surveyor to the public, disseminate public information regarding the work of consulting engineers, and surveyors and to protect the public interest in engineering and surveying matters.
- F. To promote harmony, cooperation, and mutual understanding among consulting engineers and surveyors engaged in private practice by:
 - (1) Providing a forum for interchange of professional and business information among consulting engineers, consulting engineering and surveying firms.
 - (2) Improving employment conditions for the benefit of the entire professions.
 - (3) Identifying areas where programs need to be pursued as a unified body for the mutual benefit of consulting engineers and surveyors.
 - (4) Improving working relations with contractors and their associations, architects and their associations, and other similar groups.
 - (5) Improving working relations with engineers and surveyors in industry, construction, government and education through their associations and societies.
- G. To have affiliate members to gain harmony, cooperation, and mutual understanding between consulting engineers and surveyors and representatives from construction, industry, manufacturers' suppliers and other companies doing business with ACEC-SC member firms.

ARTICLE III TYPE OF CORPORATION AND POWERS

Section 1

ACEC-SC shall be exclusively a not-for-profit business being within the meaning of Section 501 (c) (6) of the Internal Revenue Code of 1954 as may be amended from time to time and the statutes of the State of South Carolina.

- A. No part of the Corporation's net income shall inure to the benefit of any individual or class member, and the Corporation shall not have or issue shares of stock or pay dividends.

In the event of dissolution of the Corporation, whether voluntary or involuntary, all assets of the Corporation then remaining shall be distributed by the Board in such proportions as they shall determine, to one or more state-wide organizations exempt from taxation under Section 501 (a) and 501 (c) of the Internal Revenue Code, or to the Federal, or State Government for a stated purpose.

Section 2

ACEC-SC shall have all powers inherent under applicable Federal and State statutes, but shall not have the power to borrow or loan moneys. The duration of ACEC-SC shall be perpetual.

ARTICLE IV GOVERNANCE OF ACEC-SC

Section 1

The affairs of this Organization shall be governed by a Board of Directors (Board) of not less than nine members elected in accordance with the Bylaws. The Board shall elect from within its membership a Chair, Vice Chair, Secretary, and Treasurer (herein defined as Officers), at a Board meeting called within the Annual Membership Meeting to be installed during the Annual Meeting. The position of Secretary and Treasurer may be held by one person. In addition, the Board may elect a National Director and an Affiliate National Director to represent ACEC-SC on the American Council of Engineering Companies Board of Directors.

Section 2

Officers and Directors shall assume the duties as stated in the Bylaws.

ARTICLE V VOTING POWER OF GENERAL MEMBERSHIP

Section 1

Voting power shall be vested in the Member class only. Each member shall have voting rights and the total of all members, as entered into the records of the Corporation, shall equal to the total voting power of this corporation.

Section 2

Voting shall take place at a membership meeting unless otherwise set forth. If a voting quorum is not in attendance, a mail or electronic ballot shall be used for voting, if all requirements as set forth are met, except that a budget previously approved by the Board may be adopted by majority vote of the members present at the Annual Membership Meeting.

Section 3

A Mail or electronic ballot shall be marked, Ballot to be returned by (insert date of return), which marking shall allow a period of not less than fifteen days or more than thirty days from the date of mailing or distribution. Within thirty days after the date of return, the Chair shall advise the membership of the results of the ballot. Letter or electronic ballot shall become effective on the date of return. A mail or electronic voting quorum shall be a majority of the total voting power of the Corporation.

ACEC-SC BYLAWS

**ARTICLE I
DEFINITION**

The American Council of Engineering Companies of South Carolina is a statewide organization of independent consulting engineering and surveying firms incorporated as a non-profit Corporation under the statutes of South Carolina.

**ARTICLE II
MEMBERSHIP**

Section 1

Membership classifications in ACEC-SC are as follows:

- A. **Member Firm.** Firm membership shall consist of firms whose major occupation is the practice of consulting engineering or surveying who meet the requirement of Section 2 of this article.
- B. **Professional Member.** Members shall consist of member firm principals or Registered Professional Engineers or Registered Professional Land Surveyors in South Carolina or other design professionals, who are principals or employees of a member firm, and meeting the requirements of this Article, and so designated in this class to the Secretary, by the member firm, and entered into the records of ACEC-SC.
- C. **Affiliate Member.** One that does not qualify as a Member Firm and meets the qualifications of Article X Affiliate Membership.

Section 2

For the purpose of determining the eligibility for membership in this Organization, the term, Member Firm shall mean sole proprietorship, partnership, corporation, or professional association represented to the public as being available for, and whose principal activity includes, the private practice of consulting engineering or surveying, which does, and is legally authorized to practice engineering or surveying, as evidenced by a Certificate of Authorization from the South Carolina State Board of Registration for Professional Engineers and Land Surveyors, or professional engineer or surveyor registration if a sole proprietor. As a condition of membership, all ACEC-SC members must be members of the American Council of Engineering Companies.

**ARTICLE III
ADMISSION AND SEPARATION**

Section 1

Candidates for membership in any classification shall be sponsored by a Member Firm and by application of the candidate. The name of the applicant shall be submitted to the Board, which shall investigate eligibility. Upon favorable finding, the Board may vote the applicant from the designated classification into the membership.

Section 2

Any member of any classification shall be subject to removal or suspension from membership if (1) that member ceases to qualify for membership under the bylaws; (2) if any dues or assessments are in arrears more than ninety days.

Section 3

Reinstatement shall be by reapplication. Prior to reinstatement all outstanding debts to ACEC-SC must be paid.

Section 4

ACEC-SC shall hold harmless and indemnify any person acting on behalf of ACEC-SC, in matters relating to this Article, against any losses, claims, damages or liabilities, joint or several, to which he may become subject, provided he has acted in good faith and in a manner which he reasonably believes to be in, or not opposed to, the best interest of ACEC-SC.

Section 5

Any member in any classification may voluntarily terminate or suspend his membership upon written notice to the Secretary. A suspended member may be reinstated upon thirty days' written notice to the Secretary and payment of dues and assessments for the current year, provided the applicant for reinstatement possesses the qualification for membership as outlined in this Article. However, all dues and assessments due at the effective date of withdrawal are due and payable at once.

Section 6

Upon termination or expulsion of members of any classification, all rights and interests in any funds or assets of ACEC-SC are lost to that member.

Section 7

Affiliate members refer to Article X.

**ARTICLE IV
DUES AND ASSESSMENTS**

Section 1

The fiscal year shall be July 1 of one calendar year to June 30 of the next calendar year.

Section 2

Dues shall be paid by Member Firms according to index number. The index number shall be the square root of the total firm personnel carried to the next highest whole number in case of fractional dividend. However, no index number shall exceed 30. Affiliate members shall pay dues as determined by the Board on an annual basis.

Section 3

A budget shall be proposed by the Board at the Annual Membership Meeting for the next fiscal year, and an affirmative majority vote of the firms present shall so authorize receipts and expenditures.

Section 4

The Board, by a majority vote, shall be empowered to propose a special levy, if it is considered that the financial condition of ACEC-SC so warrants, or if funds are required for some special purpose

Section 5

On an annual basis and upon request, Member Firms shall report on appropriate ACEC or ACEC-SC forms the total number of personnel within the firm for dues purposes.

Section 6

Dues and other funds of the Organization shall be maintained in such depositories as the Board shall determine.

Section 7

Dues to be paid by new members will be pro-rated according to number of all quarters remaining in the fiscal year.

Section 8

The Board may establish special dues programs for new member incentives.

ARTICLE V MEETINGS

Section 1

- A. There shall be a minimum of an Annual Membership Meeting to be held at an hour and place designated by the Board. The Board may call additional regular membership meetings.
- B. Special membership meetings called for a specific purpose may be called by the Board or upon written request of not less than five percent of member firms. Written notices specifying the purpose of the meeting shall be mailed electronically or by USPS to all member firms and members of all classifications not less than ten days in advance.
- C. Twenty-five percent of the member firms, or not less than ten member firms, with at least one Professional member present whichever is the greater number, including at least three members of the Board, shall constitute a voting quorum for the transaction of business at any membership meeting and a majority vote, with each member firm being allowed one vote, shall be required to approve a motion. Exceptions are stated in Articles IV, IX and X of the bylaws.

Section 2

At least six Board meetings shall be held each fiscal year. A special meeting may be called by the President or any three Board members upon due notice. A majority of the members of the Board at any properly called Board meeting shall constitute a quorum. An affirmative vote of a majority of Board members present at any meeting shall be required to pass a motion, except as provided in Article VII of the Bylaws.

Section 3

The proceedings of any meeting shall be in accordance with the latest edition of Robert's Rules of Order, and such special rules of procedure as may be adopted by the Board.

ARTICLE VI BOARD OF DIRECTORS AND OFFICERS

Section 1

The Board shall consist of not less nine members, three of whom shall be elected each year for three-year terms. The Immediate Past Chair and the ACEC National Director shall be non-voting, ex-officio members of the Board, in addition to the above. It is the intent of this section that a continuity of service on the Board shall be established through staggered terms of office for its members. Board members elected for part of an unexpired term shall be eligible for election to a full three-year term. Board members shall take office upon election.

Section 2

No later than January 7, the Chair shall appoint three past Chairs to serve as the Nominating Committee, which will have the responsibility of presenting a slate of candidates for Board membership and Officer Positions to be voted upon at the Annual Membership Meeting. The members of the Nominating Committee shall represent their different member firms

Section 3

The nominating committee shall present to the Chair a slate of nominees for the Board and any other vacancies to be filled by election at least thirty (30) days prior to the Annual Membership Meeting, and the Chair shall see that the list of nominees be sent to all members at least fifteen (15) days prior to the Annual Membership Meeting. Nothing herein shall preclude further nominees from the floor during the Annual Membership Meeting. All nominees shall confirm willingness to serve prior to election.

Section 4

No member firm shall have more than one representative serving on the Board at any one time, except the Immediate Past Chair and the National Director, who serve ex-officio. No member shall serve on the Board for more than eight consecutive years except the Immediate Past Chair and National Director, who serve ex-officio.

Section 5

In accordance with Article V of the Articles of Incorporation the Board shall elect a Chair, Vice Chair, Secretary and Treasurer (the latter two may be one person). Additionally, the Board may elect a National Director and Affiliate National Director to represent ACEC-SC on the American Council of Engineering Companies Board of Directors. The National Director's term is for two years and the person elected should not serve more than three consecutive terms.

ARTICLE VII DUTIES AND POWERS

Section 1

- A. The Board shall seek to fulfill the purpose of and manage the affairs of ACEC-SC in accordance with the laws under which it is organized and within the provisions of the Articles of Incorporation and Bylaws. It shall direct the investment and care of all funds and make appropriations for specific purposes; act upon applications for membership; take measures to advance the profession of engineering or surveying and the interests of ACEC-SC; designate the appointive offices; perform the specific duties required of it by the Bylaws and generally direct the business Organization. During intervals between general membership meetings, the Board is to act for the membership in such a way as may be to the best interest of the Organization.
- B. In the event of a vacancy on the Board by reason of resignation, removal, death, inability to serve, or other reasons, the vacancy shall be filled as follows until the next Annual Membership Meeting.
 - (1) The Vice Chair shall become the Chair when the Chair's seat is vacated between elections.
 - (2) A vacancy on the Board other than Chair shall be filled by a majority vote of the Board.
- C. An office on the Board shall be considered vacant if the member, without just cause, has failed to attend three consecutive meetings of that body or if he ceases to be a member in good standing; any director may be removed from his position by a three-fourths majority affirmative vote of the Board.
- D. The Board may engage an executive director, employees, agents, or attorneys to perform such duties as it deems necessary and shall determine the compensation for such services.
- E. The Board shall report for the preceding fiscal year at the Annual Membership Meeting. The Annual Report shall include the reports of the Treasurer and the Secretary, and such other information as may be deemed by the Board to be appropriate.

Section 2

The Chair shall be the chief elected officer and shall have responsibility for the general management of its affairs. He shall preside over all general membership meetings and the meetings of the Board. He may assign administrative responsibilities for committees to other members of the Board. He shall be an ex-officio member of all committees, but he shall not be counted in determining the presence of a quorum for the transaction of business by any committee. In the temporary absence or disability of the Chair, the Vice Chair shall discharge the duties of the Chair.

Section 3

The Vice Chair may be assigned duties including the administration of committees and shall preside at any meeting at the request of the President.

Section 4

The Treasurer, being the financial officer of the organization shall review each annual financial report and shall report thereon to the Board. He shall be responsible for the collection of all money due and for the transfer of such money to the appropriate bank accounts. He shall have charge of the books of account and shall exercise all customary managerial functions with regard to the financial transactions. He shall present annually to the Board a balance sheet of the books, as of May 30. He shall be responsible for submitting a proposed budget to the Board and to send a copy to each member firm at least fifteen days before the Annual Membership Meeting. He shall have charge of all funds and financial records. The Treasurer, Chair, and Executive Director shall have Power-of-Attorney for the signature of checks drawn upon the funds of the organization. The Treasurer shall be empowered to defray the normal operating expenses of the organization based on the amounts designated in the budget established each fiscal year. He shall notify each delinquent member firm prior to the invocation of the suspension rule in Article III, Section 2. The Treasurer shall retain a CPA to prepare an annual review of the corporation and prepare tax returns for ACEC-SC and file such documents with the Internal Revenue Service as is required.

Section 5

- A. The Secretary, or his designee, shall keep an accurate record of minutes and attendance at all meetings of the Organization and the Board. The Secretary shall have preserved the lists of memberships, officers and committees, and other information to maintain a continuous record of ACEC-SC. He shall be responsible for communications with members.
- B. The Secretary will act as the agent upon whom process against the corporation may be served. He shall have all necessary documents filed with appropriate state and federal agencies.

**ARTICLE VIII
COMMITTEES**

Section 1

The Chair shall have the authority to appoint annually a chairperson and committees consistent with ACEC-SC's mission.

**ARTICLE IX
AFFILIATION**

Section 1

ACEC-SC reserves the right to affiliate with or withdraw from any other professional organization or coalitions.

Section 2

Affiliation, or withdrawal, shall be voted upon using the same procedures as Article X. A two-thirds majority affirmative vote of the total voting quorum of the board shall be required for affiliation with, or withdrawal of this Corporation from, any other Professional Organization. The effective date shall be as stated in the question of the vote.

Section 3

Upon joining ACEC-SC, all members shall adhere and be subject to all the rules, regulations, Articles of Incorporation, or Constitution, and Bylaws of any affiliations that are conditional to membership.

**ARTICLE X
AFFILIATE MEMBERSHIP**

Section 1 - Purpose

Certain providers of goods and services commonly employed by members in conduct of their work are known to be highly reliable sources of information useful to consulting engineers and surveyors. The same providers are in a position to act as informal liaisons between ACEC-SC and organizations and individuals with whom they work. By permitting appropriate representatives of provider organizations to participate more substantially in ACEC-SC activities, the potential for enhanced communication, cooperation and coordination can be realized. Accordingly, ACEC-SC has established an affiliate membership category.

Section 2 - Eligibility

Any organization, other than consulting engineering or surveying firms, which provides products and/or services routinely used, specified or recommended to clients by members of ACEC-SC may be eligible for affiliate membership.

Section 3 - Election to Affiliate Membership

- A. **Procedure.** Any organization desirous of becoming an affiliate member of ACEC-SC may make its wishes known in writing to the Board. Before being considered, such organization shall provide the name of at least one ACEC-SC member who shall sponsor the potential affiliate member. Each such request for affiliate membership shall be reviewed by the Board. If the Board believes that granting affiliate membership to the interested party will be in the best interest of ACEC-SC members. By a majority vote, the Board may grant affiliate membership.
- B. **Review Considerations.** In reviewing the desirability of issuing an invitation to any given prospective affiliate member firm, a member of the Board shall first speak with the sponsoring ACEC-SC member to determine the basis for such sponsorship. The Board shall review the composition of the current affiliate membership to determine the extent to which a given product or service category already is represented by existing affiliate membership, to help assure that any available affiliate memberships are used to enhance diversity of services and products represented by affiliate members. If the review indicates it would be desirable to include the prospect among the ACEC-SC affiliate membership, by a majority vote, approve the affiliate membership.
- C. **Rejection.** If for any reason an invitation shall not be extended to an organization seeking affiliate membership in ACEC-SC, the organization shall be so informed.

Section 4 - Duration of Membership

An organization's affiliate membership shall continue only through the last day of the fiscal year during which affiliate membership was conferred. The Board shall issue invitations for annual affiliate membership renewal only to those organizations which, in the opinion of the Board, enrich the value of membership for ACEC-SC members.

Section 5 - Limited Number

The number of affiliate members permitted to belong to ACEC-SC at any given time shall be determined by the Board on an annual basis and as a general rule should not exceed 25-35 percent of the number of ACEC-SC member firms. No affiliate member shall be asked to leave during a fiscal year solely because a loss of ACEC-SC members reduces the number of affiliate members who may belong to ACEC-SC.

Section 6 - Representation

Each affiliate member shall be permitted three representatives. As part of the review process, prospective affiliate member shall identify who these three representatives shall be.

Section 7 - Participation in ACEC-SC Affairs

An affiliate member representative may serve on any ACEC-SC committee, and may attend and participate in ACEC-SC membership meetings. In all such activities, however, the affiliate member representative involved shall serve without vote, in an advisory capacity only.

Section 8 - Dues and Fees

There shall be no affiliate membership application fee because organizations may become members and maintain membership from year-to-year only at the invitation of the Board. However, affiliate members shall be required to pay dues to ACEC-SC. Such dues shall be established each year by the Board of Directors.

Section 9 - Relationship to the American Council of Engineering Companies

ACEC-SC is a member organization of the American Council of Engineering Companies, and as such, each ACEC-SC member also is a member of the American Council of Engineering Companies. An affiliate member may not belong to the American Council of Engineering Companies as a regular member, and therefore no benefits accorded to members of the American Council of Engineering Companies shall be afforded to affiliate members of ACEC-SC.

Section 10 - Notice of Affiliate Membership

An affiliate member may not use affiliate membership status in the organization for any commercial purpose, except it may list its affiliate membership in proposals and similar documents of short-term longevity. In that affiliate membership in ACEC-SC may not be renewed by the Board from one year to the next, use of symbols and/or words indicating affiliate membership on or in materials such as brochures, letterheads, and business cards is expressly forbidden. In all cases, an affiliate member shall obtain permission for a specific application or category of application prior to implementing such application, and shall receive written permission for the application prior to implementing it.

ARTICLE XI AMENDMENTS TO THE ARTICLES OF INCORPORATION AND BYLAWS

Section 1

An amendment may be proposed by any member firm. In such event, the proposed amendment, in writing, shall be presented to the Board for discussion and disposition. On a majority affirmative vote of the Board, the proposed amendment shall be presented to the next membership meeting or an amendment may be proposed by five member firms and shall be presented directly to a membership meeting.

Section 2

A written copy of the proposed amendment and a notice stating the time and place of the meeting at which the proposed amendment will be considered, shall be sent to each member in each classification at least ten days prior to said meeting.

Section 3

Articles of Incorporation or Bylaws may be amended by an affirmative vote of not less than two-thirds of a voting quorum. The effective date of any amendments shall be immediate.

Approved February 20, 2013
